

Vision

We believe that each student will reach his/her highest potential through an educational program guiding upon their learning styles, language development, life experiences, and cultural backgrounds. Each student will be able to identify with their own culture and its invaluable significance, resulting in the knowledge of who they are, where they come from and ultimately developing them into social and academic maturity in today's society.

Mission

The mission of Noble Academy is to provide quality, relevant and multicultural education for all students. The unique framework is relevancy, which is a critical component for the learning process if and when the students can build on their prior knowledge. Learning makes more sense and is more connected when students can relate to the content and/or topics being taught. This school will service students ages 5-14 in the metro areas. Noble Academy will focus on these three cornerstones surrounding the educational philosophy of the school:

- A rigorous educational program focusing on core content areas and standards mandated by the state of Minnesota in reading, writing, mathematics, science and social studies
- Hmong heritage (native) language and culture
- Up to date technology
